**To: ALL MEMBERS OF THE UNITED NATIONS AND WORLD PRESS**

**Re: Request for Immediate Action to STOP WORLD CONTAMINATION by Depleted Uranium which will signal the American Plague of 2006 killing Millions on Earth.**

**Ladies and Gentlemen of the United Nations:**

- 1. The President, Vice President of the United States of America as well as Governor John Ellis "JEB" Bush of Florida have been repeatedly requested to stop the use of Depleted Uranium weapons U.S. forces by Allies as well as sale of Depleted Uranium munitions now contaminating the entire WORLD. See: [www.apfn.org/apfn/du.htm](http://www.apfn.org/apfn/du.htm).**
- 2. Humans living within areas where DU weapons were utilized will find the soil, water and even air contaminated by DU particles which inhaled, ingested and in water sources presents a nuclear killing field in all Nations as the particles will be picked up by winds and taken thousands of miles away falling down on many Nations.**
- 3. ALL tanks and buildings hit by DU should be tested along with the soil. A former American Military Officer Dr. Doug Rokke has written many articles on the dangers of Depleted Uranium particles to no avail. Women have babies being born deformed at an unacceptable rate in battle areas and strange cancers directly related to DU particles are causing a slow death similar to Asbestos Disease or Mesothelioma. Volunteers have called upon President Bush to allow TESTING and reporting by special teams which will confirm this deadly AMERICAN PLAGUE OF 2006 which could go across the entire Planet of Earth.**
- 4. Ruth DeLaMater Bundy is a female age 76 who is fully aware of the dangers of Depleted Uranium particles and survived the 1940's when World War II unleashed Nuclear Weapons such as the Atomic Bomb and DU weapons firings in Florida.**
- 5. Ralph Charles Whitley, Sr. is a decorated Veteran who served in the United States Navy and Army Reserves and knew first hand of radiation contamination and Depleted Uranium weapons leaving particles and air components which could kill.**

Please save this Planet from the American Plague of 2006.
