

## Explosive Treason By Michael Treis

As I continue to study the horrific images of the controlled demolition of the WTC Towers, and that is what it was, I see more and more evidence of Explosive Treason. As I have said from day one explosives brought down the buildings NOT the planes. I continue to prove this through the careful study of these images.

The fact that explosives brought down the buildings, leads to another problem. These explosives were in buildings 1, 2 & 7 BEFORE 9-11. As mine or anyone else's explosive training will tell them; you do not take massive quantities of explosives into a BURNING building (WTC 7) equipped with detonators, place and sequence them all in less than 7 hours.

Larry Silverstein the owner of the lease of the WTC complex stated in a PBS interview said: “the fire department officials came to me and said they didn't think they were going to be able to contain the fire and keep it from spreading. Then Silverstein said: “I remember getting a call from the fire department commander, telling me they weren't sure they were going to be able to contain the fire. I said we've had such a terrible loss of life maybe the smartest thing to do is just pull it. They made the decision to pull, then we watched the building collapse.” Proving they had a controlled demolition of building 7. When were the explosives placed in the building?

Tower 2 the second tower to be struck and the majority of the fuel from the plane erupted into a spectacularly large fireball outside of the

building. Therefore not adding large amounts of fuel to the fire as in Tower 1 .Yet Tower 2 was the FIRST to collapse.

In the above picture of Tower 2, I have arrows pointing to explosive debris exiting the building. It is differentiated from smoke and other debris under high over pressure from the collapse of the building in the fact it does not billow and roll as it comes out. It will come out in a strait but slightly conical pattern. I would have you note on the top right hand side of the picture, you will see three arrows point at double plumes of explosive debris, where shape charges were used at the corners to cut the framework.

Above you see the beginning of the detonation of the top of Tower 1. I have underlined the explosive debris exiting the windows.

In the above view of Tower 1 you will see an arrow pointing at a large plum of explosive debris. Note the strait but slightly conical pattern as opposed to the billowing clouds of rolling smoke and debris.

This next shot taken seconds later also shows explosive debris exiting at high speed, not billowing like the cloud of smoke and debris.

**A. Shows metal framework sections traveling OUTWARD 60-70 meters ahead of dust cloud, indicating explosive cutting (shaped) charge propulsion .**

**B. Shows explosive debris cloud traveling UPWARDS from explosive source.**

In the above photo as explained in A, large sections of the framework are propelled outward from the building ahead of the cloud of debris. If these sections had not had explosive charges they would have been much closer in. The two arrows B are pointing to a plum of explosive debris traveling upwards at a high rate of speed much like a pyroclastic volcanic cloud that shoots upwards and out propelled by the tremendous force of the eruption. A collapse does not send debris upwards to any extent as this.

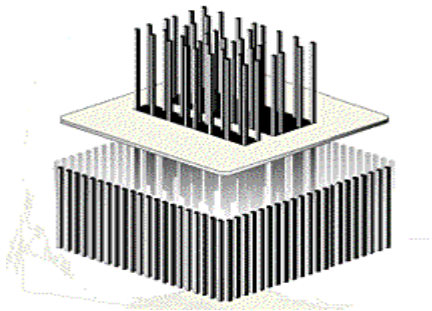

From the History channel is a picture of a controlled demolition note the explosive debris.

The greatest problem with the official “pancake” hypothesis in the World Trade Towers collapse is their inability to explain the enormous dust clouds generated by the collapses. When the tops of the buildings had barely started to move, we saw the characteristic jets of fine dust mixed with larger chunks of debris being shot out from the building for some distance. In the first few seconds of a gravitational fall nothing moves very fast. From the beginning fine dust like concrete can be seen blowing out to the sides, growing to an enormous dust cloud as the collapse progresses. The fine gray dust was literally crystalline concrete. It takes great pressure to break down concrete to a crystalline structure, overpressure that could only be caused by high explosives.

The floors themselves are 39" thick, the top 4" is a poured concrete slab, with interlocking vertical steel trusses.

This would absorb a lot of kinetic energy as one floor fell onto another crumpling, and pulverizing a small amount of concrete striking the floor below. There is instead a very fine dust being blown out to the sides as if 400,000 cubic yards of the entire mass of concrete was converted to a crystallized dust. Remember too that the tower fell at almost the speed of a gravitational free-fall, meaning that little energy was expended doing anything other than accelerating the floor slabs.

The rough amount of concrete in a single floor was 1 acre x 4". The bond between the chemical had to be overcome in order to reduce it to a crystalline powder, this requires

the energy of high explosives. If such energy had been expended in pulverization of that concrete the energy absorbed would have slowed the speed of the fall greatly.

The buildings fell in a 9-12seconds. The time **t** required for an object to fall from a height **h** (in a vacuum) is given by the formula  $t = \sqrt{2h/g}$ , where **g** is the acceleration due to gravity. Thus an object falling from the top of one of the towers (taking **h** = 1306 feet and **g** = 32.174 ft/sec<sup>2</sup>) would take 9.01 seconds to hit the ground if we ignore the resistance of the air and a few seconds longer if we take air resistance into account. This means that very little of the gravitational energy can have gone toward pulverizing the concrete. There is only one explanation explosives were used in all three buildings.

Now that I have your attention and have shown what explosive debris is in numerous examples, here are the questions you must ask yourself.

1. Since the explosives were obviously placed in the building BEFORE 9-11, when?
2. To consider this you must ask yourself who would have access? It would require access to security control.
3. Why would someone place explosives in these three buildings if they didn't have prior knowledge of 9-11? (They had to have explosives as these towers could have withstood multiple hits by 707 jets, that is what the designer says).

Now if prior knowledge existed, which it did, then someone has committed the most heinous act of treason in American history! Explosive Treason!

In My second book *The Destruction of America... Conspiracy of Consensus* (see: <http://www.birrenbach.com/TREIS/>) I documented prior knowledge by Attorney David Shippers former Chicago D.A. Mr. Shipper had two FBI agents who were under a gag order from the Justice Department turn over their files to him. These files proved without a doubt that Project Bojinka was in play. Project Bojinka was a plan found by the FBI in the Philippines on terrorist's computer in 1995. It was a plan to take passenger jets full of fuel and crash them into landmarks in Washington D.C. and lower Manhattan. Mr. Shippers did NOT sit on the information. He went to Secretary of Defense Donald Rumsfeld's AND Attorney General John Ashcroft's offices and relayed the information, to no avail. He talked with some Congressmen also. No One would do anything. (You can read the whole interview with Mr. Shippers and Alex Jones at: <http://www.infowars.com/>)

There are numerous instances of German, Russian, Italian, British and Israeli intelligence warning the Bush administration that this terrorist attack was imminent. These folks however, like to play dumb. It was a giant intelligence failure! It was the worst OOPS we ever had! We were blind-sided! These people KNEW it was going to happen.

So this most heinous act of terrorism took place with prior knowledge AND complicity of this administration. Nearly 3000 people MURDERED, for what?

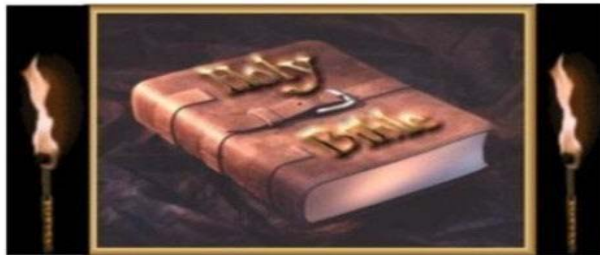

Rabbi Dov Zakheim former Comptroller of the Pentagon and #2 man in the Dept. of Defense, co-authored an article entitled "Rebuilding America's Defenses: Strategy, Forces and Resources for a New Century" which was published by The Project for a New American Century in September 2000, exactly a year before 9/11; in this article, on page 51, it is stated that *"the process of transformation, even if it brings revolutionary change,*

*is likely to be a long one, absent some catastrophic and catalyzing event - like a new Pearl Harbor"!* Prior to working for the Pentagon & DOD Rabbi Dov Zakheim was Chief Executive Officer of System Planning Corporation's International Division. System Planning Corporation main claim to fame is the Flight Termination System (FTS) which allows the takeover of an aircraft prior to flight or in flight. It allows the remote control of up to eight planes by one controller.

What did this new Pearl Harbor give us, two wars both wanted and planned in advance by this administration. The Bush administration held extensive talks with the Taliban regime from February 1999 to August 2001 with the aim of securing control over the vast oil and gas reserves in Central Asia through the construction of an oil pipeline from the rich oil fields in Turkmenistan, Uzbekistan and Kazakstan, to Afghanistan, Pakistan and onto the Indian Ocean. During the negotiations the US representatives told the Taliban, 'either you accept our offer of a carpet of gold, or we bury you under a carpet of bombs.'" Mr. Dick Cheney sat on the Afghanistan Oil reserve Control Board prior to being Vice President. It is his former company Halliburton that is connected to the main contractor, as well as being the largest contractor in the Iraq War. Follow the bucks, and the power.

Since 9-11 we have passed the Patriot Act 1 & 2 , and other draconian legislation that has literally destroyed the framework for the Constitution. We now have a national ID card in th form of new drivers licenses with RFID (radio frequency Identification) chips embedded, so we may be tracked. You can have your house searched without a search warrant. You may be arrested without benefit of counsel, and held incommunicado until the end of the "war on terrorism." There are over 300 concentration camps ready waiting and staffed in this country for individuals who won't easily comply with these new laws. How would you know if people were taken if the news media didn't tell you? Because they won't.

We as Americans must either take back this country county by county, for the county is the cornerstone of government. We must form Common Law Courts and Grand Juries to bring the unaccountable people in high places to justice, or become slaves and serfs in the new Amerika foretold in the miniseries of the 1980's, a place little better than now socialist Russia. We have some tough choice and rough times ahead so PRAY you choose well.
