

Dear Mr. Warden

Sorry to sound misterious, but with Escolon snooping
I didn't want to send a red flag.

My friend was a dispatcher for the trunk lines for 35
years and no dummy. When the bases were closed and her
trucks sent in, she knew by the material sent in that
they were being rehabed for internment centers.
Enclosed is the map she kept track of them.

Also you are missing the underground city of Denver
under the airport and the crematorium below. There
was a website that carried the article and pictures.
If you want, I'll try to dig them up .

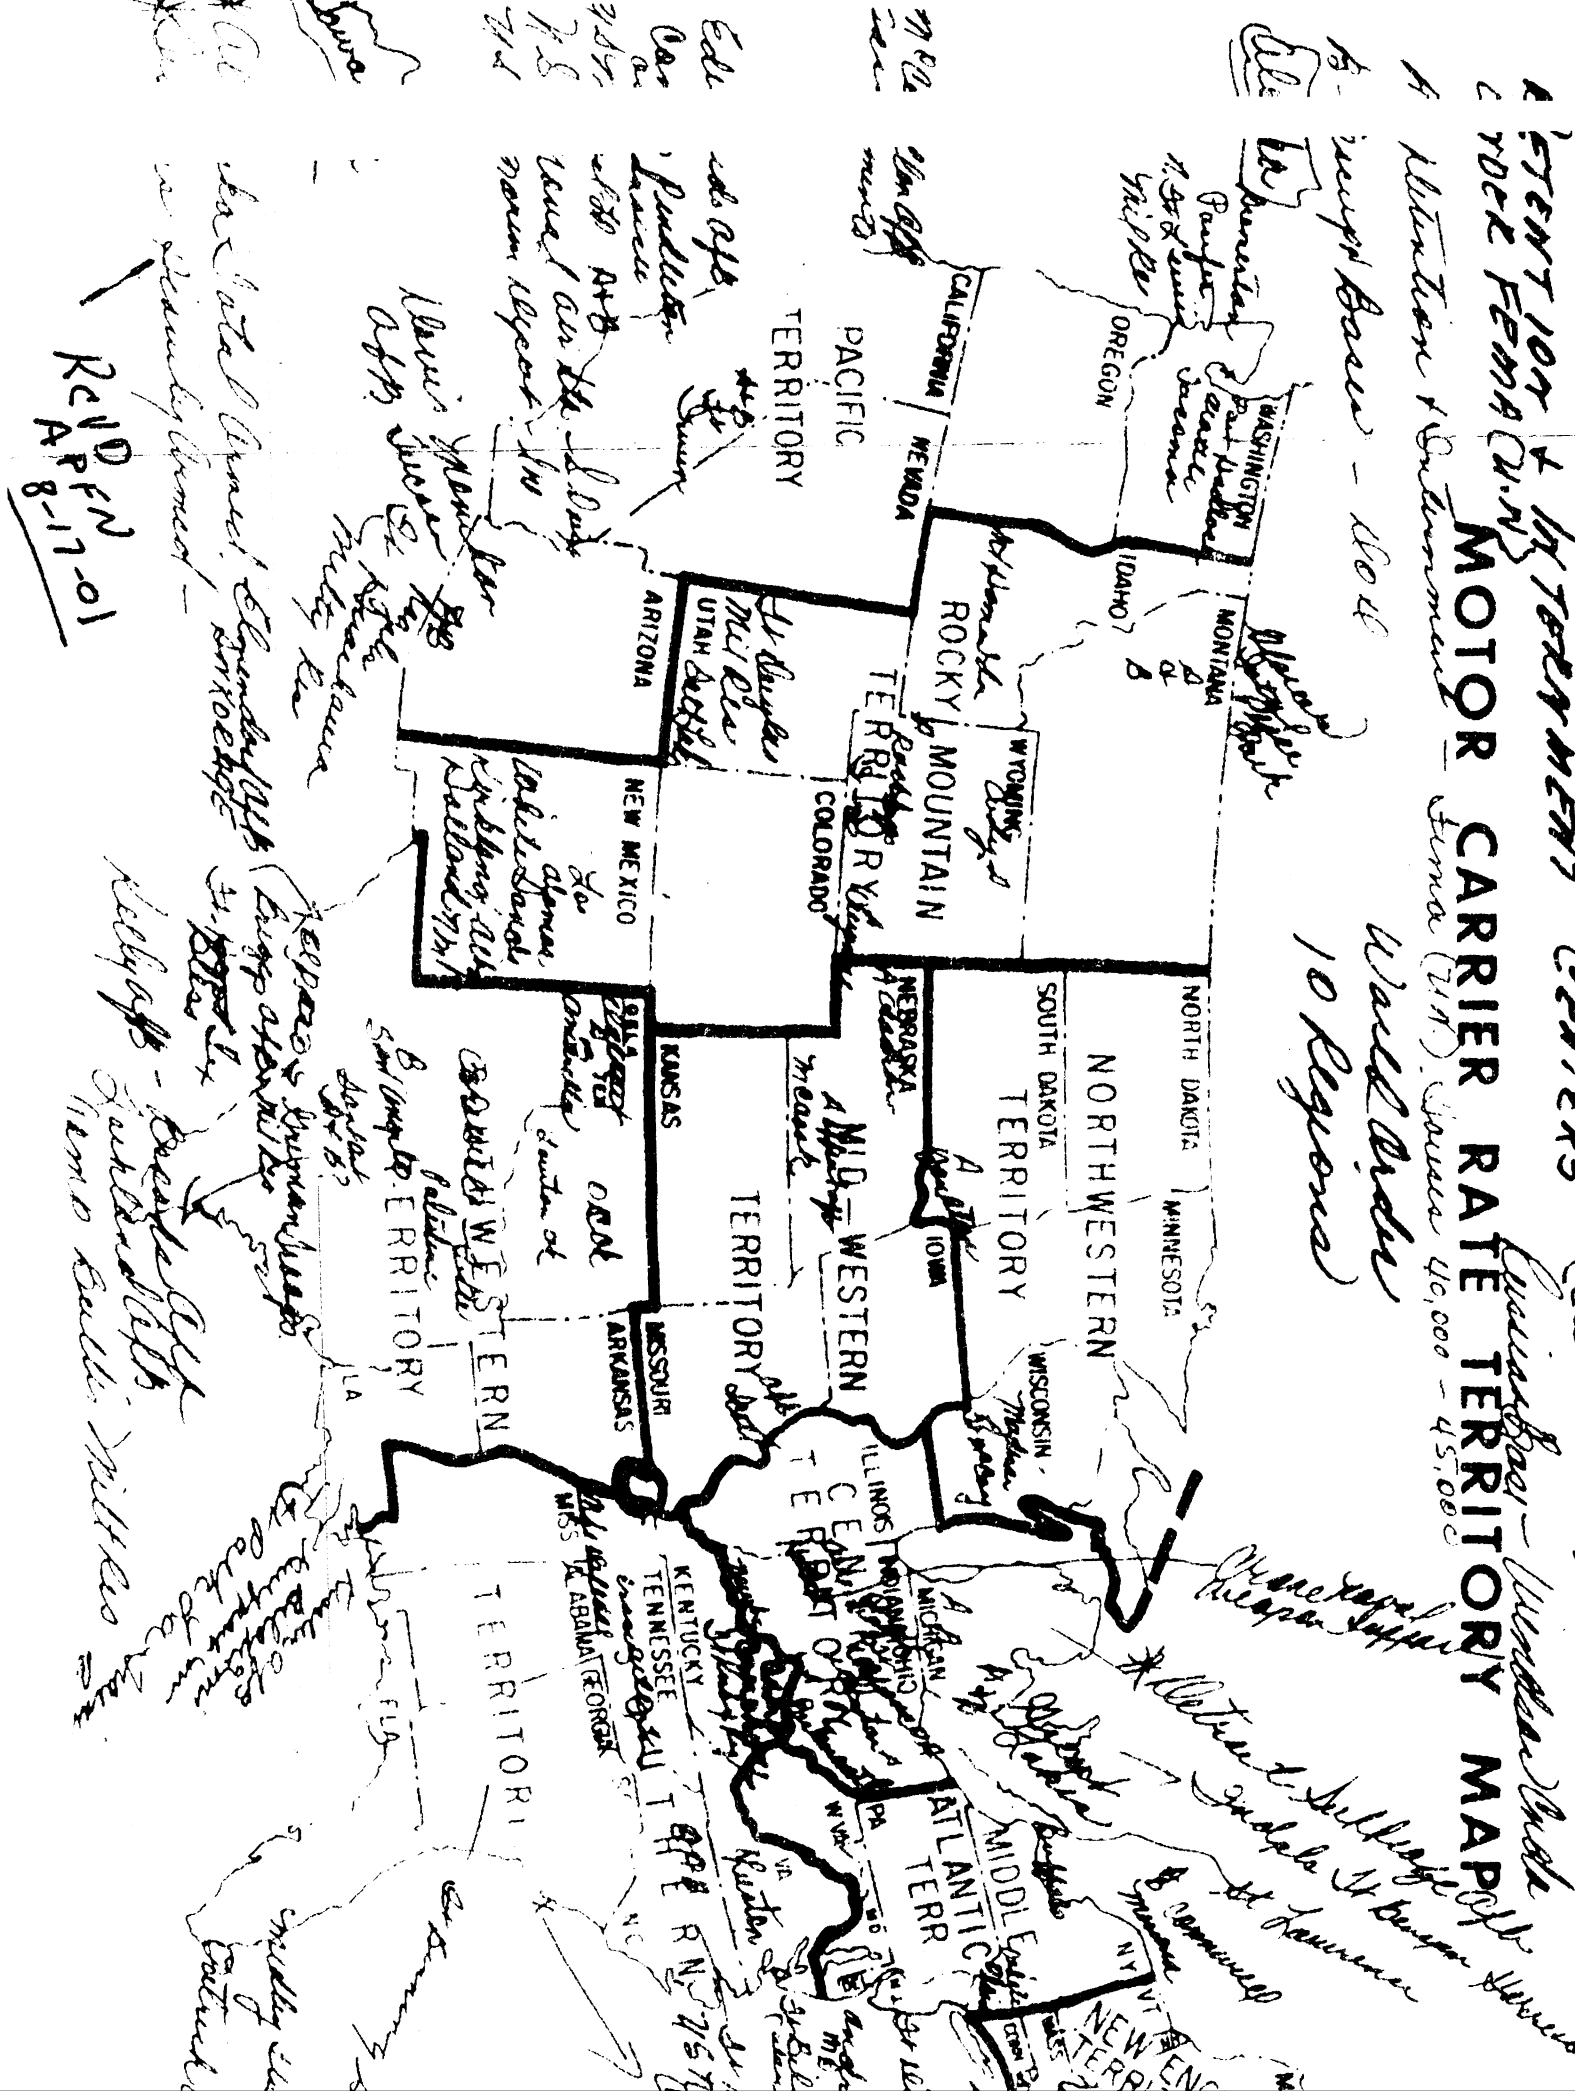

Also unknown is the 350 special forces military men
last seen going to the Denver airport and remain missing
This was 3 years ago.

Yours in the knowing christians.
